DM:

Hey Bitlanger! 📌

Saw your profile—"Bitcoin & crypto since 2017 | Ph.D in shitpost" 🤖. Your 395K following and educational focus really caught my attention.

I'm Samuel, founder of @DecaFlow, and I think we have a partnership opportunity that could bring MASSIVE value to your Telegram community while creating a recurring revenue stream for you.

QUICK CONTEXT:

DecaFlow is the first privacy-focused cross-chain DEX on Base. We solve a problem EVERY trader faces (and you've probably experienced since 2017):

When your community members trade on Uniswap or other DEXs:

- Bots front-run their trades
- Other traders copy their moves
- Their wallets get tracked
- Their strategies become public
- Zero financial privacy

DecaFlow = PRIVATE swaps + cross-chain bridges (Base, ETH, Arbitrum, Polygon, Optimism, Avalanche) in ONE platform.

HERE'S THE PARTNERSHIP:

I know you're focused on EDUCATION and bringing VALUE to your 395K community, not just promoting random projects. So here's how this benefits EVERYONE:

1. EXCLUSIVE BENEFITS FOR YOUR COMMUNITY

Your Telegram members get:

- VIP trading fees (0.2% instead of 0.3% = 33% discount)
- Telegram bot access (swap without leaving Telegram!)
- Priority customer support
- Early access to new features
- Educational content about privacy trading (fits your education focus!)
- Monthly trading competitions with prizes

This makes YOU look like the hero who brought them premium tools.

2. RECURRING REVENUE FOR YOU 💰

Full transparency: We're early-stage with no marketing budget for upfront payments.

BUT here's what we CAN do:

- You get 30% of ALL swap fees from your community members (FOREVER)
- Tracked via custom referral link/code
- Paid monthly in USDC (real money, not promises)
- Completely passive—once they use it, you earn every time they trade
- Unlimited upside: the more they trade, the more you earn

Example Math (with your 395K audience, this could be HUGE):

- Your community does \$500K monthly volume = \$1,500 in fees → \$450-600 to YOU -
\$1M monthly volume = \$3,000 in fees → \$900-1,200 to YOU - \$5M monthly volume =
\$15,000 in fees → \$4,500-6,000 to YOU - **\$10M monthly volume = \$30,000 in fees →**
\$9,000-12,000 to YOU

PLUS Volume Bonuses:

- Community hits \$500K = \$500 bonus - Community hits \$1M = \$1,000 bonus -
Community hits \$5M = \$5,000 bonus - Community hits \$10M = \$10,000 bonus

3. CO-BRANDED PARTNERSHIP

Option A: Standard Integration

- Feature DecaFlow in your Telegram with your referral link
- Co-branded educational content (fits your educator brand!)
- Joint AMAs/workshops

Option B: White-Label (If you want to go deeper)

- Custom DecaFlow interface branded with YOUR logo/colors
- "Bitlanger Trading Hub powered by DecaFlow"
- Looks like YOU built it, we handle the tech
- Strengthens your brand as someone who provides tools, not just education

4. FUTURE TOKEN ALLOCATION

When we launch our token:

- Your community gets priority allocation
- You get personal founder allocation (you're an OG since 2017!)
- Ground floor opportunity before public launch

WHY THIS MAKES SENSE FOR YOUR COMMUNITY:

As someone who's been in crypto since 2017 and holds a "Ph.D in shitpost," you know the importance of PRIVACY and EDUCATION:

Your members protect their trading strategies (no copycats) Whales in your community can trade without revealing positions No MEV bots front-running their trades Cross-chain access = more DeFi/NFT/GameFi opportunities (you cover all these!) Telegram bot = trade without leaving the group chat **Educational opportunity:** Teach your community about privacy trading

This isn't just another "shill this project" ask. This is a TOOL that actually helps your community trade better and safer, PLUS it aligns with your educator brand.

WHAT I'M PROPOSING:

Phase 1: Test with Your Inner Circle

- Introduce DecaFlow to your core/VIP members first
- Get their feedback
- See if they find it valuable
- Zero pressure, just testing

Phase 2: Educational Rollout

- Create educational content about privacy trading (your specialty!)
- Co-branded announcement
- Tutorial sessions for your community
- Launch with exclusive benefits for your members

Phase 3: Scale Together

- Track volume and earnings
- Monthly payouts to you
- Optimize based on community feedback
- Build long-term partnership

WHY I'M REACHING OUT TO YOU:

You're not just another "crypto influencer." You're:

- An OG (crypto since 2017—you've seen it all!)
- An EDUCATOR (focused on teaching, not just shilling)
- Building a MASSIVE COMMUNITY (395K followers!)
- Covering DeFi, NFT, and GameFi (DecaFlow fits all these)
- A HODLER (you understand long-term value)

You care about your community's education and success. DecaFlow is a tool that actually helps them succeed while generating passive income for you.

THE ASK:

Would you be open to a 15-20 min call this week to explore this?

I can show you:

- How the platform works
- How the tracking/revenue sharing works
- How we'd roll this out to your community
- Educational content we could co-create
- Custom features we could build for your group

If it's a fit, great. If not, no hard feelings. I respect what you're building either way.

Thoughts?
