

DecaFlow Partnership Proposal

Tailored for Kelvin king (@kelvinking_)

8. @kelvinking_ (Kelvin king) **Profile:** CEO & Founder of Telecoin, Blockchain Engineer, 47.6K followers **Focus:** Telecoin (telecom + crypto), fintech, blockchain engineering **Website:** kelvin-king.netlify.app

No direct trading community mentioned

DM:

Hey Kelvin!

Saw your profile—CEO & Founder of Telecoin and Blockchain Engineer. Your work combining telecoms with crypto is really innovative!

I'm Samuel, founder of @DecaFlow, and I think we have a partnership opportunity that could be mutually beneficial—both for your 47.6K followers and potentially for Telecoin's ecosystem.

QUICK CONTEXT:

DecaFlow is the first privacy-focused cross-chain DEX on Base. We solve a problem EVERY trader faces:

When traders use Uniswap or other DEXs:

- Bots front-run their trades
- Other traders copy their moves
- Their wallets get tracked
- Their strategies become public
- Zero financial privacy

DecaFlow = PRIVATE swaps + cross-chain bridges (Base, ETH, Arbitrum, Polygon, Optimism, Avalanche) in ONE platform.

HERE'S THE PARTNERSHIP:

I know you're focused on building Telecoin and your blockchain engineering work, but here's how a DecaFlow partnership could benefit your audience AND potentially integrate with Telecoin:

1. VALUE FOR YOUR AUDIENCE (47.6K followers)

Your followers get:

- VIP trading fees (0.2% instead of 0.3% = 33% discount)
- Priority customer support
- Early access to new features
- Educational content about privacy trading
- Monthly trading competitions with prizes

This adds value to your audience while you focus on building Telecoin.

2. RECURRING REVENUE FOR YOU 💰

Full transparency: We're early-stage with no marketing budget for upfront payments.

BUT here's what we CAN do (and as a fintech founder, you'll appreciate this model):

- You get 30% of ALL swap fees from your audience (FOREVER)
- Tracked via custom referral link/code
- Paid monthly in USDC (real money, not promises)
- Completely passive—once they use it, you earn every time they trade
- Unlimited upside: the more they trade, the more you earn

Example Math (with your 47.6K audience):

- Your audience does \$500K monthly volume = \$1,500 in fees → \$450-600 to YOU - \$1M monthly volume = \$3,000 in fees → \$900-1,200 to YOU - \$5M monthly volume = \$15,000 in fees → \$4,500-6,000 to YOU - **\$10M monthly volume = \$30,000 in fees → \$9,000-12,000 to YOU**

PLUS Volume Bonuses:

- Community hits \$500K = \$500 bonus - Community hits \$1M = \$1,000 bonus -
Community hits \$5M = \$5,000 bonus - Community hits \$10M = \$10,000 bonus

3. POTENTIAL TELECOIN INTEGRATION

(This is where it gets interesting for a blockchain engineer like you):

Option A: Standard Partnership

- Feature DecaFlow to your 47.6K followers with your referral link
- Co-branded content for your audience
- Official DecaFlow Partner status

Option B: Technical Integration (If you want to explore this)

- Explore Telecoin + DecaFlow integration
- **Example:** Telecoin users could use DecaFlow for private swaps
- Cross-promotion: DecaFlow users discover Telecoin
- Technical collaboration between two blockchain projects
- Mutual ecosystem growth

4. FUTURE TOKEN ALLOCATION

When we launch our token:

- Your audience gets priority allocation
- You get personal founder allocation (founder-to-founder respect!)
- Ground floor opportunity before public launch
- Potential for Telecoin-DecaFlow token partnership

WHY THIS MAKES SENSE FOR YOU:

As a blockchain engineer and CEO of Telecoin, you understand:

Privacy is important: Telecoin focuses on telecom privacy, DecaFlow focuses on trading privacy (aligned values!) **Fintech synergies:** Both projects are in fintech/

blockchain space **Recurring revenue:** Passive income while you build Telecoin
Ecosystem growth: Your audience benefits from DecaFlow, DecaFlow users discover Telecoin **Founder-to-founder:** We're both building in the same space

This isn't just another "shill this project" ask. This is a PARTNERSHIP opportunity between two blockchain projects with aligned values (privacy, fintech, innovation).

WHAT I'M PROPOSING:

Phase 1: Initial Promotion

- You promote DecaFlow to your 47.6K followers
- Co-branded announcement
- Educational content about privacy trading
- Launch with exclusive benefits for your followers

Phase 2: Track & Optimize

- Monitor volume and engagement
- Monthly payouts to you in USDC
- Optimize messaging based on performance
- Scale what works

Phase 3: Explore Technical Integration (Optional)

- If Phase 1-2 goes well, explore Telecoin + DecaFlow integration
- Technical collaboration between teams
- Mutual ecosystem growth
- Long-term partnership

WHY I'M REACHING OUT TO YOU:

You're not just another "crypto influencer." You're:

- A BLOCKCHAIN ENGINEER (you understand the tech)
- CEO & FOUNDER of Telecoin (founder-to-founder respect)
- Building in FINTECH (DecaFlow is also fintech)

- Have a SOLID AUDIENCE (47.6K followers)
- Joined since 2010 (OG in the space!)

You understand building real products with real value. DecaFlow is solving a real problem (privacy in DeFi), and this partnership could be mutually beneficial for both our projects.

THE ASK:

Would you be open to a 15-20 min call this week to explore this?

I can show you:

- How the platform works (blockchain engineer to blockchain engineer)
- How the tracking/revenue sharing works
- Potential for Telecoin integration
- How this benefits your audience
- Technical deep dive (I know you'll appreciate this!)

If it's a fit, great. If not, no hard feelings. I respect what you're building with Telecoin.

Thoughts?
