DM:

Hey Uncle Ubong!

Saw your profile—Web3 KOL, Bybit Ambassador, and "I'm one of the Best!" Love the confidence!

I'm Samuel, founder of @DecaFlow, and I think we have a partnership opportunity that could bring MASSIVE value to your Token Tribe community while creating a recurring revenue stream for you.

QUICK CONTEXT:

DecaFlow is the first privacy-focused cross-chain DEX on Base. We solve a problem EVERY trader faces:

When your Token Tribe members trade on Uniswap or other DEXs:

- Bots front-run their trades
- Other traders copy their moves
- Their wallets get tracked
- Their strategies become public
- Zero financial privacy

DecaFlow = PRIVATE swaps + cross-chain bridges (Base, ETH, Arbitrum, Polygon, Optimism, Avalanche) in ONE platform.

HERE'S THE PARTNERSHIP:

I know you're focused on bringing VALUE to Token Tribe, not just promoting random projects (you're an ambassador for major projects like Bybit, so you understand quality). Here's how this benefits EVERYONE:

1. EXCLUSIVE BENEFITS FOR TOKEN TRIBE

Your Telegram members get:

- VIP trading fees (0.2% instead of 0.3% = 33% discount)
- Telegram bot access (swap without leaving the chat!)
- Priority customer support
- Early access to new features
- Educational content about privacy trading
- Monthly trading competitions with prizes

This makes YOU look like the hero who brought them premium tools (adding to your "one of the Best" reputation!).

2. RECURRING REVENUE FOR YOU 💰

Full transparency: We're early-stage with no marketing budget for upfront payments.

BUT here's what we CAN do (and you'll understand this as a Bybit ambassador):

- You get 30% of ALL swap fees from your community members (FOREVER)
- Tracked via custom referral link/code
- Paid monthly in USDC (real money, not promises)
- Completely passive—once they use it, you earn every time they trade
- Unlimited upside: the more they trade, the more you earn

Example Math:

- Your community does \$500K monthly volume = \$1,500 in fees → \$450-600 to YOU -
\$1M monthly volume = \$3,000 in fees → \$900-1,200 to YOU - \$5M monthly volume =
\$15,000 in fees → \$4,500-6,000 to YOU

PLUS Volume Bonuses:

- Community hits \$500K = \$500 bonus - Community hits \$1M = \$1,000 bonus -
Community hits \$5M = \$5,000 bonus

3. AMBASSADOR/CO-BRANDED PARTNERSHIP

(Since you're already an ambassador for Bybit, ProjectZero, and Codatta, this model will feel familiar!)

Option A: Standard Ambassador Program

- Feature DecaFlow in Token Tribe with your referral link
- Co-branded content for your community
- Joint AMAs/workshops
- Official DecaFlow Ambassador status

Option B: White-Label (If you want to go deeper)

- Custom DecaFlow interface branded with YOUR logo/colors
- "Token Tribe Trading Hub powered by DecaFlow"
- Looks like YOU built it, we handle the tech
- Strengthens your KOL brand as someone who provides tools

4. FUTURE TOKEN ALLOCATION

When we launch our token:

- Your community gets priority allocation
- You get personal founder allocation (ambassador perks!)
- Ground floor opportunity before public launch

WHY THIS MAKES SENSE FOR TOKEN TRIBE:

As a Web3 KOL and ambassador for major projects, you know the importance of PRIVACY and QUALITY:

Your tribe members protect their trading strategies (no copycats) Whales in your community can trade without revealing positions No MEV bots front-running their trades
Cross-chain access = more trading opportunities Telegram bot = trade without leaving Token Tribe **Adds to your ambassador portfolio:** DecaFlow joins Bybit, Codatta, and ProjectZero

This isn't just another "shill this project" ask. This is a TOOL that actually helps your tribe trade better and safer, AND it aligns with your ambassador/KOL brand.

WHAT I'M PROPOSING:

Phase 1: Test with Token Tribe Inner Circle

- Introduce DecaFlow to your core members first
- Get their feedback
- See if they find it valuable
- Zero pressure, just testing

Phase 2: Full Token Tribe Launch

- If your inner circle loves it, roll out to full community
- Co-branded announcement
- Educational session about privacy trading
- Launch with exclusive benefits for Token Tribe

Phase 3: Scale Together

- Track volume and earnings
- Monthly payouts to you
- Optimize based on community feedback
- Build long-term partnership (like your other ambassador roles)

WHY I'M REACHING OUT TO YOU:

You're not just another "crypto influencer." You're:

- A WEB3 KOL (you understand the space deeply)

- An AMBASSADOR for major projects (Bybit, Codatta, ProjectZero—you have credibility)
- A WRITER and COMMUNITY MOD (you know how to engage communities)
- "One of the BEST!" (your words, and I believe it!)
- Based in Watford, England (international reach)

You care about your Token Tribe's success. DecaFlow is a tool that actually helps them succeed while generating passive income for you.

THE ASK:

Would you be open to a 15-20 min call this week to explore this?

I can show you:

- How the platform works
- How the tracking/revenue sharing works (similar to your other ambassador programs)
- How we'd roll this out to Token Tribe
- Custom features we could build for your community
- How this fits into your existing ambassador portfolio

If it's a fit, great. If not, no hard feelings. I respect what you're building either way.

Thoughts?
