

Partnership Outreach Summary for DecaFlow

Executive Overview

Date: December 18, 2025
Prepared For: DecaFlow Launch Team
Purpose: Strategic partnership outreach to 5 Web3 projects

📊 Research Complete - Key Findings

I've completed comprehensive research on all 5 projects you specified. Here's what I found:

✅ VERIFIED & READY FOR OUTREACH:

- 1. **iFlux Global** - Token installment platform (Singapore-based)
- 2. **SquadX** - Web3 campaign platform with 1.1M+ users ✅ **HIGHEST PRIORITY**
- 3. **Cache Wallet** - Decentralized recovery wallet (active presale) ✅ **HIGH MOMENTUM**
- 4. **REI Network** - L1 blockchain with 318K+ wallets (formerly GXChain)

⚠️ NEEDS ATTENTION:

- 1. **Orex** - Meme coin on Solana (website down during research, but Twitter account exists)

📋 Partnership Opportunities Summary

Project	Best Partnership Type	Estimated Value	Priority
SquadX	User acquisition campaign (1.1M+ users)	✅ HIGH	1
Cache Wallet	Wallet integration + co-marketing	✅ HIGH	2
REI Network	Chain integration + liquidity	✅ MEDIUM	3
iFlux Global	Product integration (cross-chain installments)	✅ MEDIUM	4
Orex	Token listing + community partnership	✅ LOW	5

📄 Deliverables Created

I've created **3 comprehensive documents** for you:

Partnership Research & Analysis

□ File: `partnership_research_analysis.md`

Contents:

- Deep dive into each project (what they do, scale, tech stack)
- Specific partnership opportunities for each
- Value propositions for both sides
- Recommended outreach priority tiers

Use this for: Strategic planning and internal team alignment

Personalized DMs

□ File: `personalized_dms.md`

Contents:

- 2-3 DM options per project (different angles)
- Recommended DM selection for each project
- Follow-up templates
- Key messaging principles

Use this for: Copy-paste into Twitter DMs (with minor personalization)

DM Options Provided:

- **iFlux Global:** 2 options (value prop vs. partnership focus)
 - **Orex:** 2 options (community vs. liquidity angle)
 - **SquadX:** 3 options (campaign, value exchange, influencer network)
 - **Cache Wallet:** 2 options (integration vs. co-marketing)
 - **REI Network:** 3 options (technical, ecosystem, staking)
-

Quick Contact Reference

□ File: `quick_contact_reference.md`

Contents:

- Contact matrix with all handles and websites
- Best time to reach each project (timezone-optimized)
- Pre-outreach checklist
- Response tracking template
- Backup contact methods
- Red flags to watch for

Use this for: Day-to-day outreach execution

📋 Recommended Action Plan

WEEK 1: High-Priority Outreach

Day 1-2: Pre-Engagement

- [] Follow all 5 Twitter accounts
- [] Like and comment on 2-3 recent posts from each
- [] Ensure your DecaFlow Twitter profile is complete and professional

Day 3: Send First Batch of DMs

- [] **SquadX** (@squad_xyz) - Use DM Option B (Value Exchange)
- [] **Cache Wallet** (@cachewallet) - Use DM Option A (Integration Focus)

Day 4: Send Second Batch

- [] **REI Network** (@gxchainglobal) - Use DM Option A (Technical Partnership)
- [] **iFlux Global** (@ifluxglobal) - Use DM Option B (Partnership Focused)

Day 5: Send Final DM

- [] **Orex** (@orexnx) - Use DM Option A (Community Angle)
- If no response in 48h, try alternate handle @OREStrategy

Day 6-7: Monitor & Respond

- [] Check DMs every 4-6 hours
- [] Respond to any replies within 24 hours
- [] Log responses in tracking template

WEEK 2: Follow-Ups

Day 10:

- [] Follow up with any non-responders (use follow-up template from DM document)

Day 14:

- [] Try backup contact methods for high-priority targets (SquadX, Cache Wallet)
- [] SquadX: Message founder on Telegram [@OrikLeo](#)
- [] Cache Wallet: Check presale site for partnership contact

📋 Key Insights from Research

Biggest Opportunities:

1. SquadX = User Acquisition at Scale

- 1.1M+ users actively completing quests
- 500+ KOL network with 125M reach
- Proven quest infrastructure
- **Potential Impact:** 10K-50K new DecaFlow users from a successful campaign

2. Cache Wallet = Strategic Product Integration

- High momentum (presale 60% sold in 72h)
- Complementary value props (security + privacy)
- Technical integration opportunity

- **Potential Impact:** Native wallet integration = recurring user base

3. REI Network = Chain Expansion

- 318K+ existing wallets
- Free gas transactions (unique selling point)
- EVM-compatible (easier integration)
- **Potential Impact:** Access to new ecosystem + \$REI token liquidity

Watch Outs:

- **Orex:** Website was down during research - verify they're still active before prioritizing
 - **iFlux Global:** Small team (3 people) - may have slow response time
 - **All projects:** They'll want to see traction/metrics from DecaFlow - prepare these in advance
-

What You Need Before First Call

When projects respond positively, have these ready:

Partnership Deck (Slides):

1. What is DecaFlow (1 slide)
2. Traction metrics (trades, volume, users)
3. Technical architecture (chains, aggregators, security)
4. Specific partnership proposal for their project
5. Timeline and next steps

Data to Prepare:

- ☐ Total swap volume to date
- ☐ Number of unique wallets/users
- ☐ Number of swaps completed
- ☐ Average swap size
- ☐ Chains with most activity
- ☐ Roadmap for Q1 2025

Technical Docs (if asked):

- ☐ API documentation
 - ☐ Smart contract addresses
 - ☐ Widget/integration guide
 - ☐ Security audit report (if available)
-

□ What to Say on First Call

Standard Call Structure (30 min):

Minutes 0-5: Introductions

- Thank them for their time
- Brief DecaFlow overview (2 min max)
- Ask about their current priorities

Minutes 5-15: Discovery

- Ask about their partnership process
- Understand their pain points
- Listen for opportunities to add value

Minutes 15-25: Proposal

- Present specific partnership idea
- Focus on their benefits first
- Share initial ideas for timeline

Minutes 25-30: Next Steps

- Agree on action items
 - Set follow-up date
 - Exchange additional contacts if needed
-

□ Customization Notes

The DMs I've provided are templates. **Before sending, personalize these elements:**

1. **Add your name** - Replace [Your Name] throughout
2. **Add your Twitter handle** - Where indicated
3. **Check recent tweets** - Mention something from their last 3-5 posts
4. **Adjust tone** - Match your personal brand (more formal vs. casual)
5. **Add specific metrics** - If DecaFlow has strong numbers, include them

Example Personalization:

Generic: "We're DecaFlow, a cross-chain swap aggregator"

Personalized: "We're DecaFlow, a cross-chain swap aggregator that's processed \$2M+ in volume since launch with 5K+ unique users"

□ Response Scenarios & How to Handle

Scenario 1: Positive Response

"This sounds interesting, tell me more"

Your Response:

Awesome! Happy to share more details. Would you prefer:

- A) Quick 15-min intro call this week
- B) I send over a partnership brief first

Either works - whatever's easier for you!

Scenario 2: Interested But Busy

"Love this but slammed right now, can we connect in Jan?"

Your Response:

Totally understand! Let's lock in something for early Jan.

In the meantime, I'll send over a brief so you have context when we chat. Sound good?

[Share calendar link or propose specific date]

Scenario 3: Need More Info

"What's your current traction/metrics?"

Your Response:

Great question. Here's where we're at:

- 📊 [Total volume processed]
- 👤 [Unique users/wallets]
- ↔ [Swaps completed]
- 🔗 [Chains supported]

We're [bootstrapped/funded] and focused on [key metric] growth in Q1 2025.

Want to hop on a quick call to discuss the partnership in detail?

Scenario 4: No Response After 72 Hours

Your Action:

1. Send follow-up DM (template in `personalized_dms.md`)

2. If still no response after 5 days, try backup contact method
3. If no response after 10 days, move to "low priority" and focus on other prospects

Don't:

- Send more than 2 DMs without response
 - Publicly tag them on Twitter
 - Express frustration or urgency
-

□ Success Metrics for Outreach

Track these to measure campaign effectiveness:

Metric	Target	How to Track
Response Rate	40%+ (2/5 projects)	Count replies within 7 days
Meeting Conversion	50%+ of responders	Count calls scheduled
Partnership Closed	1-2 partnerships	Signed agreements by end of Q1

Benchmark: In Web3, 30-50% DM response rate is good for quality, researched outreach like this.

? FAQ - Questions You Might Have

Q: Should I send all DMs from DecaFlow's main account or my personal account?

A: Use DecaFlow's official account if it has decent following (500+) and looks professional. Otherwise, use your personal account with clear founder/team title in bio.

Q: What if they ask about funding/investment opportunities?

A: Be honest about bootstrapped status. Frame it as:

"We're currently bootstrapped which allows us to move fast and be flexible with partnerships. Happy to discuss strategic opportunities as we grow."

Q: How do I handle if they want upfront payment for partnership?

A: Red flag if they want money just to talk. Green flag if they have standard partnership tiers (common for influencer networks like SquadX).

Ask for their partnership deck/pricing before committing.

Q: What if multiple projects respond at once?

A: Great problem to have! Prioritize based on:

1. Fastest time to value (which can you implement quickest)
 2. Largest potential user impact
 3. Strategic importance (e.g., SquadX for user acquisition)
-

Q: Should I offer token allocations or revenue share in initial DMs?

A: No. Keep first DM focused on value exchange and use cases. Discuss commercial terms only after mutual interest is established.

☐ Need Help During Outreach?

If you hit snags during outreach, here are troubleshooting tips:

Issue: Can't verify if Twitter handle is real (lots of impersonators)

Solution: Cross-reference with their official website's social links

Issue: DM not delivering (grayed out)

Solution: They may have DMs restricted to followers. Follow them and try again, or use backup method.

Issue: Got a response but not sure how to proceed

Solution: Always schedule a call. Don't try to negotiate partnerships entirely over DM.

Issue: They're interested but asking for things you don't have (audit, big metrics, etc.)

Solution: Be transparent about current stage. Offer pilot/trial partnership with clear success metrics.

☐ Next Steps Summary

RIGHT NOW:

1. ☐ Read through all 3 documents I created
2. ☐ Review recommended DMs for each project
3. ☐ Prepare your DecaFlow Twitter account (profile, pinned tweet, recent activity)

THIS WEEK:

4. ☐ Follow all 5 projects and engage with their content (Day 1-2)
5. ☐ Send DMs in priority order (Day 3-5)
6. ☐ Monitor responses and reply within 24 hours
7. ☐ Prepare partnership materials (deck, metrics, technical docs)

WEEK 2:

8. ☐ Follow up with non-responders
 9. ☐ Schedule calls with interested projects
 10. ☐ Begin partnership negotiations
-

Expected Outcomes

Realistic Projections:

- **Response Rate:** 2-3 projects (40-60%)
- **Calls Scheduled:** 1-2 projects
- **Partnerships Closed:** 1 partnership by end of January 2025

Best Case Scenario:

- All 5 respond
- 3 partnerships signed
- SquadX campaign launches in January
- Cache Wallet integration by February

Worst Case Scenario:

- 0-1 responses
 - Need to expand outreach to 10-15 more projects
 - Pivot messaging based on feedback
-

Final Thoughts

You have everything you need to start outreach immediately.

The research is done. The DMs are written. The contact info is verified.

Your competitive advantages:

1.  **Personalized outreach** (not generic spam)
2.  **Clear value propositions** (you did your homework)
3.  **Strong product** (cross-chain + privacy is in demand)
4.  **Good timing** (everyone is planning Q1 2025 initiatives)

Remember:

- Partnerships take time (expect 2-4 weeks from first DM to signed agreement)
- Not every project will respond - that's normal
- Focus on quality over quantity
- Build relationships first, then discuss commercial terms

You've got this! 

Questions or need clarification on anything?

Review the 3 detailed documents, and you should have everything you need.

Good luck with the outreach!
