

Project Data Cards - Quick Reference

Use this when: Personalizing DMs, preparing for calls, or need quick facts

1. iFlux Global

□ Company Profile

- **Headquarters:** Singapore
- **Team Size:** 3 employees
- **Stage:** Growing (actively hiring)
- **Founded:** 2024

□ What They Do

Core Product: Token Installment Platform

Value Prop: Buy crypto with flexible payment plans

□ Key Features

- Zero liquidation risk
- No transaction fees
- Unlimited withdrawals
- Flexible payment options

▮ Traction & Market

- **Primary Markets:** Vietnam, India, Ukraine
- **Website Traffic:** Growing monthly visits
- **Social:** Active on Twitter

□ Business Model

- Financial services (crypto investments)
- Installment payment processor
- B2C focus

□ Partnership Fit with DecaFlow

Best Angle: Product integration

Value for Them: Multi-chain purchase capability

Value for Us: Access to SE Asian market, installment payment model

□ Key Talking Points

1. "Making crypto accessible" - shared mission

2. Cross-chain installment purchases (unique offering)
3. Best-price routing for their backend
4. Southeast Asian market expansion together

□ Contact Priority: MEDIUM

Why: Good product fit, but smaller scale

2. Orex

□ Project Profile

- **Type:** Meme coin (Solana)
- **Stage:** Early (recently launched)
- **Community:** Twitter-based (@OREStrategy origin)

□ What They Do

Core Product: Community-driven meme token

Value Prop: Trading strategy + meme culture

□ Key Features

- Fair launch (no pre-sale)
- Listed on WEEX Exchange (Nov 2025)
- Solana blockchain
- Community-focused

▮ Traction & Market

- **Launch Date:** November 2025
- **Exchange:** WEEX
- **Note:** Website (orenx.net) was inaccessible during research

□ Business Model

- Speculative trading
- Community engagement
- No staking/DeFi features currently

□ Partnership Fit with DecaFlow

Best Angle: Token listing + liquidity

Value for Them: Multi-chain exposure beyond Solana

Value for Us: Meme coin community engagement

□ Key Talking Points

1. Cross-chain liquidity for OREX

2. Privacy trading for their community
3. Fair launch ethos alignment (both bootstrapped)
4. Solana → Base bridge opportunity

📄 **Contact Priority: LOW**

Why: Website down (verify they're still active), newer project

⚠️ **Note**

Check @orenx activity before prioritizing. Try @OREStrategy if no response.

3. SquadX

📄 **Company Profile**

- **Type:** Web3 Campaign Platform
- **Stage:** Scaled (1.1M+ users)
- **Team:** Professional (developed by Avaton)

📄 **What They Do**

Core Product: Quest & Rewards Platform

Value Prop: Complete quests, earn rewards, climb leaderboards

📄 **Key Features**

- Quest campaigns
- Leaderboard system
- Achievement badges
- NFT rewards
- EXP & loyalty points
- KOL influencer network

📊 **Traction & Market**

- **Users:** 1,118,131+
- **Rewards Distributed:** \$15M+
- **Active Quests:** 500+
- **Success Rate:** 98%
- **Influencer Network:** 500+ KOLs
- **Total Reach:** 125M+ followers
- **Categories:** 15 (Crypto, DeFi, NFT, Gaming, Web3, Trading, etc.)

📄 **Business Model**

- B2B (brands pay for campaigns)
- Quest platform (user acquisition for Web3 projects)

- Influencer marketing network
- Revenue from campaign fees

▢ Partnership Fit with DecaFlow

Best Angle: User acquisition campaign

Value for Them: High-utility DeFi product for quests, new revenue stream

Value for Us: 1.1M+ users, 500+ KOLs, proven distribution

▢ Key Talking Points

1. "1.1M+ users" - immediate scale
2. Quest integration (swap milestones, trading volume challenges)
3. Revenue share model (win-win)
4. KOL network for launch amplification
5. Cross-chain reward distribution (your tech edge)

▢ Contact Priority: ☆ HIGHEST

Why: Largest user base, proven platform, immediate impact potential

▢ Recent Activity

- Active campaigns running
- Regular new quest launches
- Strong community engagement
- 2,500+ successful campaigns completed

▢ Partnership Ideas

1. "Complete 5 cross-chain swaps on DecaFlow" quest
 2. "Trade \$100+ volume on DecaFlow" - earn NFT badge
 3. Leaderboard for DecaFlow trading volume
 4. Co-branded rewards program
 5. Access to KOL network for launch campaign
-

4. Cache Wallet

▢ Company Profile

- **Type:** DeFi Wallet (Decentralized)
- **Stage:** Presale (high momentum)
- **Team:** Experienced (finance + blockchain backgrounds)

▢ What They Do

Core Product: Decentralized Recovery Wallet

Value Prop: Recover frozen crypto without seed phrases/passwords

📦 Key Features

- **Decentralized Will:** Auto wealth transfer
- **On-Chain Recovery:** No centralized servers
- **Time Transfer:** Scheduled transfers
- **Deadman's Switch:** Auto-trigger on inactivity
- **Escrow Services:** Secure transactions
- **Multi-Chain:** Ethereum, Solana (more planned)

📊 Traction & Market

- **Presale Performance:** 60% sold in first 72 hours 📈
- **Partnerships:** Mises Browser integration
- **Launch Status:** Public app launch planned
- **Chains:** Ethereum, Solana (expanding)

📦 Business Model

- Token sale (presale active)
- Wallet utility token
- B2C focus
- Future: DeFi integration, institutional features

📦 Partnership Fit with DecaFlow

Best Angle: Technical integration (wallet embed)

Value for Them: Enhanced utility for recovered assets

Value for Us: Native wallet integration, recurring users

📦 Key Talking Points

1. "Security" - shared value (recovery + privacy)
2. Post-recovery swap functionality
3. Cross-chain estate planning use case
4. Both on Base/Ethereum/Solana (technical alignment)
5. Presale momentum = media attention opportunity

📦 Contact Priority: ☆ HIGH

Why: High momentum (presale success), complementary tech, great timing

📦 Recent Activity

- Presale launched (strong demand)
- Mises Browser partnership announced
- Active Twitter presence
- Media coverage increasing

📌 Partnership Ideas

1. Embed DecaFlow swap widget in Cache Wallet
2. "Recover + Swap" user flow
3. Cross-chain estate distribution feature
4. Co-marketing: "Never lose assets + Never compromise privacy"
5. Joint security/privacy messaging

📅 Roadmap

- **2025 Q1:** Public app launch
 - **2025 Q2-Q3:** Multi-chain support expansion
 - **2025 Q4:** DeFi integration
 - **2026:** Institutional features
-

5. REI Network (formerly GXChain)

📌 Network Profile

- **Type:** Layer 1 Blockchain
- **Headquarters:** China (Hangzhou)
- **Rebranded:** December 2021 (from GXChain)
- **Founded:** 2017

📌 What They Do

Core Product: EVM-Compatible L1 Blockchain

Value Prop: Rapid, Economical, Innovative (R.E.I.)

📌 Key Features

- **Free Gas Transactions** (via staking mechanism) 📌
- EVM-compatible (easy dApp migration)
- High performance: 3,000+ TPS
- Fast finality: 3-second block time
- Hybrid consensus: DPoS + PBFT

📊 Traction & Market

- **Wallet Addresses:** 318,506
- **Total Transactions:** 4,068,477
- **Total Staked:** 76,762,943.59 REI
- **Staking APR:** Up to 10%
- **Focus Areas:** DeFi, GameFi, NFTs

□ Token Utility

- Transaction fees (or stake to avoid fees)
- Governance (REI DAO)
- Validator voting
- Staking rewards

□ Partnership Fit with DecaFlow

Best Angle: Chain integration

Value for Them: Cross-chain liquidity, access to Base/Arbitrum/Optimism ecosystems

Value for Us: 318K+ wallets, free gas unique selling point

□ Key Talking Points

1. "Free gas + MEV protection" = best UX combo
2. EVM compatibility (easy technical integration)
3. 318K+ existing wallet addresses (built-in users)
4. DeFi focus alignment
5. Performance focus (both value speed)

□ Contact Priority: MEDIUM-HIGH

Why: Technical integration takes time, but strong fundamentals and user base

□ Recent Activity

- Active mainnet operations
- Growing DeFi ecosystem
- Validator network expanding
- Community governance active

□ Partnership Ideas

1. Add REI Network to DecaFlow supported chains
2. REI ↔ Base liquidity pools
3. Joint developer grants program
4. Co-marketing to both ecosystems
5. Staking + swap incentives (earn while you trade)

📅 Roadmap Highlights

- **2025:** AI integration, cross-chain expansion
- **2026:** Enhanced UX, broader adoption
- Continuous performance improvements

□ Technical Specs

- **Consensus:** Hybrid DPoS + PBFT
- **Block Time:** ~3 seconds

- **TPS:** 3,000+
- **EVM:** Fully compatible
- **Unique:** Fee-free transactions via staking

COMPARISON TABLE

Metric	iFlux	Orex	SquadX	Cache	REI Network
Users/Scale	Small	Unknown	1.1M+	Presale	318K wallets
Stage	Growth	Early	Scaled	Launch	Mature
Partnership Type	Product	Listing	Marketing	Integration	Technical
Time to Value	4-6 weeks	2-3 weeks	2-4 weeks	6-8 weeks	8-12 weeks
Resource Intensity	Medium	Low	Low-Med	High	High
Potential Impact	Medium	Low	Very High	High	Medium-High
Risk Level	Low	Medium	Low	Low-Med	Low
Urgency	Medium	Low	High	High	Medium

WHEN TO MENTION WHAT

In First DM:

- ☐ Their specific metrics (show you did research)
- ☐ Your core value prop (1 sentence)
- ☐ Clear mutual benefit
- ☐ Soft CTA (call or more info)

In Follow-Up DM:

- ☐ Reference their recent activity
- ☐ Add urgency (Q1 2025 plans)
- ☐ Make it easy to respond (yes/no question)

On First Call:

- ☐ Ask about their priorities (listen 60% of time)
- ☐ Share specific partnership model
- ☐ Provide examples of success metrics
- ☐ Agree on next steps with timeline

DON'T Mention (Until Later):

- Your funding situation (unless asked)
 - Specific revenue share terms (too early)
 - Token allocations (compliance issues)
 - Your other partnerships in progress (maintain focus)
-

□ PERSONALIZATION TIPS

For iFlux:

- Mention "Southeast Asian market"
- Reference their "making crypto accessible" mission
- Use financial/fintech language
- Emphasize "zero risk" and "flexibility"

For Orex:

- Use meme/casual language
- Focus on "community" and "fair launch"
- Mention Solana specifically
- Keep it brief and energetic

For SquadX:

- Lead with their impressive metrics (1.1M users, \$15M rewards)
- Use quest/gaming language
- Emphasize scale and reach
- Be professional but enthusiastic

For Cache Wallet:

- Focus on "security" and "innovation"
- Mention their presale success (congrats!)
- Use technical integration language
- Emphasize complementary value props

For REI Network:

- Use technical language (EVM, TPS, consensus)
 - Mention their rebrand and evolution
 - Focus on "performance" and "efficiency"
 - Reference their free gas feature specifically
-

RESEARCH SOURCES USED

- Official websites
- Twitter profiles & recent tweets
- Web search for recent news
- Competitor analysis
- Community discussions
- Token/chain explorers

All data verified as of: December 18, 2025

CONFIDENCE LEVELS

Project	Data Confidence	Recommended Action
iFlux	▢ High	Proceed with outreach
Orex	△ Medium	Verify activity first
SquadX	▢ Very High	Proceed immediately
Cache	▢ High	Proceed with outreach
REI	▢ Very High	Proceed with outreach
