1. SquadX (@squad_xyz)

SquadX! 👋

Love what you've built - 1.1M users, 500+ KOLs, \$15M distributed. That's the reach we need.

Quick intro: We're DecaFlow, a cross-chain swap aggregator (Base, Arbitrum, Optimism, Polygon, ET

Why partner with us:

1. High-utility DeFi quests for your community (more engagement)
2. Cross-chain reward distribution via DecaFlow (we handle the tech)
3. Revenue share on swap volume from your referred users
4. Access to Base ecosystem (growing fast 📈)

Why we need you:

- User acquisition at scale (your 1.1M+ base)
- KOL network for visibility
- Proven quest infrastructure

We're launching major growth initiatives in Q1 2025. Perfect timing to align?

Let's build something big together.

DM me back or let's hop on a quick call.

The vision:

- User recovers lost assets via Cache Wallet
- Instantly swap/bridge recovered funds across chains via DecaFlow
- Estate planning: Distribute inherited crypto cross-chain seamlessly

Both our platforms prioritize security - you handle recovery, we handle privacy. Together, we off

Technical integration: Embed DecaFlow swap widget directly in Cache Wallet UI.

We're on Base, planning Ethereum/Solana integration (your chains). Timeline aligns perfectly.

Want to explore this? Happy to discuss technical specs + co-marketing opportunities.

Let's build the most secure, user-friendly wallet experience in Web3.

Why integrate REI + DecaFlow:

1. Unique combo: Your free gas + our MEV protection = best UX in DeFi
2. Liquidity bridge: Connect REI ecosystem to Base, Arbitrum, Optimism, Polygon
3. Multi-chain DeFi: DecaFlow becomes the gateway for REI holders to access other chains
4. Joint developer grants: Co-fund projects building on both ecosystems

Technical fit:

- Both EVM-compatible ☑
- Similar performance focus ☑
- Complementary features (free gas + privacy) ☑

We're bootstrapped but growing fast. REI's 318K+ wallet addresses would benefit from seamless cro

📄 QUICK RESPONSE TEMPLATES

If they say: *"Tell me more"*

Awesome! Would you prefer:

- A) Quick 15-min call this week, or
- B) I send a partnership brief first?

Either works - whatever's easier for you!

If they say: *"Interested but busy right now"*

Totally understand! Let's lock in something for [2 weeks from now].

In the meantime, I'll send over a brief so you have context when we chat.

Sound good?

If they ask: *"What's your traction?"*

Great question. Here's where we're at:

- 📊 [Total volume processed]
- 👤 [Unique users/wallets]
- ➡ [Swaps completed]
- 🔗 [Chains: Base, Arbitrum, Optimism, Polygon, ETH, Avalanche]

We're bootstrapped and focused on [key metric] growth in Q1 2025.

Want to hop on a quick call to discuss the partnership in detail?

Follow-Up DM (After 72 hours no response)

Hey [Team Name]!

Quick follow-up on my previous message about partnering between [Their Project] and DecaFlow.

I know DMs get buried, so wanted to resurface this. We're moving fast on partnerships and would love to talk.

TL;DR: [1 sentence specific value prop]

If interested, we can start with a 15-min intro call. Let me know!

Otherwise, no worries - best of luck with [something specific they're working on].

Cheers,

[Your Name]

❑ RED FLAGS - DON'T PROCEED IF:

- ❑ They ask for upfront payment to "discuss partnership"
- ❑ They want access to your smart contracts/private keys
- ❑ They're not verified (check website matches Twitter)
- ❑ No social media activity in 30+ days
- ❑ Website permanently down (7+ days)

❑ GREEN LIGHTS - GOOD SIGNS:

- ❑ They respond within 48 hours
- ❑ They ask specific questions about integration
- ❑ They offer to schedule a call
- ❑ They mention other partners they've worked with
- ❑ They share their partnership process/deck

❑ CALL PREP (When They Say Yes)

Have ready before first call:

- [] Partnership deck (5-7 slides max)
- [] DecaFlow traction metrics
- [] Technical documentation (if relevant)
- [] Calendar link for easy scheduling

- [] List of questions to ask them

Call agenda (30 min):

1. Intros (5 min)
 2. Understand their priorities (10 min) - LISTEN MORE
 3. Present partnership idea (10 min)
 4. Next steps (5 min)
-

SUCCESS DEFINITION

You're doing great if:

- 2+ projects respond within 1 week (40% response rate)
- 1+ call scheduled within 2 weeks
- 1 partnership closed within 4-6 weeks

Don't stress if:

- Some don't respond (totally normal)
- You need to send follow-ups
- Conversations take 2-3 weeks to develop

Partnerships take time. Stay consistent.

NEED HELP?

If you're stuck:

1. No responses after 10 days?

- Try backup contact methods (see [quickcontactreference.md](#))
- Expand to 5-10 more projects
- Review DMs for improvements

2. Getting responses but they fizzle out?

- Respond faster (within 12 hours ideal)
- Offer clear next step (call)
- Don't try to negotiate over DM

3. They're asking for things you don't have?

- Be transparent about current stage
 - Offer pilot/trial partnership
 - Focus on mutual learning
