

Partnership Research & Outreach Strategy for DecaFlow

Date: December 18, 2025

Platform: DecaFlow.xyz - Privacy-focused cross-chain swap aggregator on Base

Overview of DecaFlow

- **Core Product:** Cross-chain swap aggregator with privacy features (MEV protection)
 - **Technology:** Multi-chain DEX with bridge functionality (CCIP, CCTP, Socket)
 - **Chains Supported:** Base (primary), Arbitrum, Optimism, Polygon, Ethereum, Avalanche
 - **Status:** Bootstrapped, seeking visibility, acceptance, and liquidity
 - **Unique Value Prop:** Privacy + Interoperability + Best-price routing
-

Project Analysis & Partnership Opportunities

1. iFlux Global (@ifluxglobal)

Website: iflux.global

What They Do:

- Token installment platform for crypto investments
- Headquarters: Singapore
- Unique Service: Buy crypto with flexible payment plans (installments)
- Key Features: Zero liquidation risk, no transaction fees, unlimited withdrawals
- Market Focus: Vietnam, India, Ukraine (primary traffic)
- Team Size: 3 employees, actively hiring

Partnership Opportunities:

1. **Cross-Chain Installment Integration** - Integrate DecaFlow's swap functionality into iFlux's installment purchase flow, allowing users to buy tokens across multiple chains with payment plans
2. **Liquidity Partnership** - DecaFlow can provide the best-price routing for iFlux's token purchase backend
3. **Joint Product:** "Installment Cross-Chain Swaps" - Users pay in installments while getting tokens across different chains
4. **Co-Marketing:** Target Southeast Asian markets together

Value Proposition for iFlux:

- Access to multi-chain liquidity via DecaFlow
- Enhanced user experience with cross-chain purchases
- Privacy features for high-value installment purchases

Fastest Contact Method: Twitter DM to @ifluxglobal

2. Orex (@orenx)

Website: orexn.net (Note: Website not accessible during research)

What They Do:

- Meme coin on Solana blockchain
- Community-driven with trading strategy focus
- Fair launch token (no pre-sale)
- Listed on WEEX Exchange
- Twitter handle: @OREStrategy (original account)

Partnership Opportunities:

1. **Token Listing** - List OREX on DecaFlow for cross-chain trading
2. **Liquidity Provision** - Joint liquidity pools for OREX trading pairs
3. **Community Cross-Promotion** - Leverage their meme coin community for DecaFlow adoption
4. **Bridge Integration** - Enable OREX holders to bridge and trade across multiple chains via DecaFlow

Value Proposition for Orex:

- Multi-chain exposure for a Solana-native token
- Access to Base, Arbitrum, Optimism liquidity
- Privacy trading features for their community

Fastest Contact Method: Twitter DM to @orenx

3. SquadX (@squad_xyz)

Website: squadx.xyz

What They Do:

- Web3 campaign platform with quest and rewards system
- **Scale:** 1.1M+ users, \$15M+ in rewards distributed
- **Services:** Quest campaigns, influencer network (500+ KOLs, 125M+ reach)
- **Business Model:** Community building, leaderboards, achievement badges, NFT rewards
- **Use Cases:** Brand amplification, user acquisition campaigns
- **Tech Stack:** Web3 quests, loyalty points, EXP system

Partnership Opportunities:

1. **Quest Integration** - Create DecaFlow-specific quests (e.g., "Complete 5 cross-chain swaps", "Bridge \$100+ on DecaFlow")
2. **Co-Marketing Campaign** - Leverage their 1.1M+ users for DecaFlow awareness
3. **Referral Program** - Joint referral rewards using SquadX's infrastructure
4. **Influencer Network** - Access to 500+ KOLs for DecaFlow launch promotion
5. **Leaderboard Integration** - DecaFlow trading volume leaderboard on SquadX
6. **Reward Token Partnership** - Use DecaFlow for reward token distribution across chains

Value Proposition for SquadX:

- Add a high-utility DeFi product to their quest ecosystem
- Cross-chain reward distribution capabilities
- New revenue stream from DeFi protocol partnerships

Fastest Contact Method: Twitter DM to @squad_xyz or through their website's "Create Community" portal

4. Cache Wallet (@cachewallet)

Website: cachewallet.com

What They Do:

- Decentralized recovery wallet for frozen/lost crypto assets
- **Core Innovation:** Recover assets without seed phrases or passwords
- **Key Features:**
 - Decentralized Will (automatic wealth transfer)
 - On-chain recovery (no centralized servers)
 - Time Transfer & Deadman's Switch
 - Escrow services
- **Multi-Chain:** Ethereum, Solana, with more chains planned
- **Token Sale:** 60% sold in first 72 hours (strong demand)
- **Partnerships:** Mises Browser integration

Partnership Opportunities:

1. **Wallet Integration** - Native DecaFlow integration in Cache Wallet for seamless swaps
2. **Recovery + Swap Feature** - After recovering assets, users can immediately swap/bridge via DecaFlow
3. **Cross-Chain Estate Planning** - Use DecaFlow to distribute inherited crypto across multiple chains
4. **Security Collaboration** - Both focus on user security (Cache: recovery, DecaFlow: privacy)
5. **Joint Marketing:** "Never Lose Your Assets" + "Never Compromise Your Privacy"

Value Proposition for Cache Wallet:

- Enhanced utility for recovered assets
- Cross-chain functionality for estate planning features
- Access to DecaFlow's Base ecosystem

Fastest Contact Method: Twitter DM to @cachewallet or via their presale page contact

5. GXChain Global / REI Network (@gxchainglobal)

Website: rei.network

What They Do:

- EVM-compatible Layer 1 blockchain (formerly GXChain, rebranded 2021)
- **Performance:** 3,000+ TPS, 3-second block time
- **Unique Feature:** Free gas transactions via staking mechanism
- **Network Stats:** 318,506 wallet addresses, 4M+ transactions, 76M+ REI staked
- **Focus Areas:** DeFi, GameFi, NFT projects
- **Consensus:** Hybrid DPoS + PBFT
- **Token Utility:** Staking (up to 10% APR), governance, validator voting

Partnership Opportunities:

1. **Chain Integration** - Add REI Network to DecaFlow's supported chains
2. **Free Gas + Privacy Swaps** - Unique value prop combining REI's free transactions with DecaFlow's

privacy

3. **Liquidity Partnership** - Cross-chain liquidity between Base and REI Network
4. **DeFi Ecosystem Collaboration** - DecaFlow as the gateway for REI Network users to access other chains
5. **Validator Partnership** - Joint staking/liquidity programs
6. **Co-Development**: Bridge infrastructure between REI Network and Base

Value Proposition for REI Network:

- Access to Base, Arbitrum, Optimism, Polygon ecosystems
- Enhanced interoperability for REI token holders
- Attract DeFi users with cross-chain capabilities

Fastest Contact Method: Twitter DM to @gxchainglobal or via rei.network's "Get Started" developer portal

Recommended Outreach Priority

Tier 1 (High Priority - Immediate Outreach):

1. **SquadX** - Largest user base (1.1M+), immediate visibility potential
2. **Cache Wallet** - High momentum (successful presale), complementary tech

Tier 2 (Medium Priority - Week 2):

3. **REI Network** - Technical integration, chain expansion
4. **iFlux Global** - Product integration opportunity

Tier 3 (Exploratory):

5. **Orex** - Community partnership, depends on their response/activity level
-

Next Steps

1. Review and approve personalized DMs (see next section)
2. Send DMs in priority order
3. Follow up after 48-72 hours if no response
4. Prepare partnership decks for interested parties
5. Schedule calls with respondents within 1 week
