

DecaFlow 72-Hour Pre-Launch Visibility Strategy

December 17-20, 2025 | Professional Multi-Chain Positioning

Created: December 17, 2025

Launch Date: December 20, 2025

Budget: \$0

Goal: Maximum visibility across 6 blockchain ecosystems

THE POSITIONING

Core Message:

"DecaFlow: The Multi-Chain DEX Built for Everywhere"

Supported Chains:

- Base
- Arbitrum
- Optimism
- Polygon
- Avalanche
- Ethereum

Value Proposition:

We don't pick favorites. We support all 6 chains with equal priority, optimization, and features. Your ecosystem choice shouldn't limit your access to great DeFi tooling.

Tone:

- Professional and aspirational
 - Inclusive, not exclusive
 - Value-first, not drama-first
 - Collaborative across all ecosystems
-

72-HOUR EXECUTION TIMELINE

DAY 1 (DECEMBER 17): FOUNDATION

Hour 1-2: Create Launch Assets

Primary Launch Announcement (Twitter Long-Form Post)

LAUNCHING DEC 20: DecaFlow - The Multi-Chain DEX Built for Everywhere

Most DEXs focus on one chain. We support six: Base, Arbitrum, Optimism, Polygon, Avalanche, and Ethereum.

Why? Because DeFi users shouldn't be limited by which chain they prefer. Your ecosystem choice shouldn't determine your access to great tooling.

What makes DecaFlow different:

- Earn points on every trade - not just empty promises, real tracking
- 💰 Weekly cash prizes funded by platform fees - we share revenue with users
- 2026 airdrop eligibility - early users get rewarded
- 🏆 Live leaderboard - transparent competition, no hidden metrics
- Seamless cross-chain swaps - bridge aggregation built in

Our approach is simple: we're not here to pick winners between chains. We're here to serve ALL DeFi users, regardless of their ecosystem preference.

If you trade on Base, Arbitrum, or any of our 6 supported chains - you're home.

Built with deep liquidity routing across all chains, optimized gas on L2s, and real rewards that start immediately.

Launch: December 20, 2025

decaflow.xyz

First 100 to 1,000 points = Pioneer status (2x airdrop allocation)

Whether you're on Base, Arbitrum, or any of our supported chains - we're ready for you.

The future of DeFi isn't about one chain winning. It's about interoperability, choice, and access. We built DecaFlow to make that future accessible today.

DECAFLOW - THE MULTI-CHAIN DEX

Launching December 20, 2025

OVERVIEW:

DecaFlow is a multi-chain decentralized exchange supporting 6 major blockchains: Base, Arbitrum, Optimism, Polygon, Avalanche, and Ethereum.

FEATURES:

- Seamless swaps across 6 chains
- Points system - earn on every trade
- Weekly cash prizes from platform fees
- Live leaderboard
- Cross-chain bridge aggregation
- 2026 airdrop eligibility

LAUNCH DETAILS:

Date: December 20, 2025

Website: decaflow.xyz

Pioneer Status: First 100 to 1,000 points (2x airdrop allocation)

WHY MULTI-CHAIN:

Users shouldn't have to choose between their favorite chain and great tooling. We support all major ecosystems with equal priority.

TECHNICAL HIGHLIGHTS:

- Native DEX integrations on each chain
- Optimized gas costs per network
- Deep liquidity routing
- Bridge aggregation via Socket & Li.Fi

Hour 3-6: Strategic Community Outreach

Target: 18 Communities (3 per chain)

Community Introduction Template

For Base Communities:

Hey Base community!

Launching DecaFlow **on** Dec 20 - a multi-chain DEX **with** full Base support alongside 5 other chains.

We're taking an inclusive approach: supporting Base, Arbitrum, Optimism, Polygon, Avalanche, and Ethereum with equal priority.

Features:

Seamless swaps **on** Base (optimized **for** low gas)

Points system **with** weekly cash prizes

Cross-chain capabilities

2026 airdrop eligibility

Launching **in** 3 days. Would love feedback **from** the Base community!

decaflow.xyz

For Arbitrum Communities:

Hey Arbitrum community!

Launching DecaFlow **on** Dec 20 - a multi-chain DEX **with full** Arbitrum support alongside 5 other chains.

We're building for all major ecosystems: Arbitrum, Base, Optimism, Polygon, Avalanche, and Ethereum.

Features:

Optimized for Arbitrum's low fees

Points **system with** weekly cash prizes

Cross-chain bridge integration

2026 airdrop eligibility

Would love **to** hear what the Arbitrum community thinks!

decaflow.xyz

For Optimism Communities:

Hey Optimism community!

Launching DecaFlow **on Dec 20** - a multi-chain DEX **with full** Optimism support alongside **5** other chains.

We've integrated with Velodrome and other OP-native protocols for optimal routing.

Features:

- Optimism-optimized swaps
- Points system with weekly cash prizes
- Multi-chain capabilities
- 2026 airdrop eligibility

Would love the Optimism community's feedback!

decaflow.xyz

For Polygon Communities:

Hey **Polygon** community!

Launching DecaFlow **on Dec 20** - a multi-chain DEX **with full Polygon** support alongside **5** other chains.

Polygon's massive user base makes it a key part of our multi-chain strategy.

Features:

- QuickSwap & Uniswap V3 integration
- Points system with weekly cash prizes
- Cross-chain swaps
- 2026 airdrop eligibility

Would love Polygon community's thoughts!

decaflow.xyz

For Avalanche Communities:

Hey Avalanche community!

Launching DecaFlow **on Dec 20** - a multi-chain DEX **with full** Avalanche support alongside **5** other chains.

Leveraging Avalanche's subnet architecture for optimal performance.

Features:

- Trader Joe & Pangolin integration
- Points system with weekly cash prizes
- Multi-chain capabilities
- 2026 airdrop eligibility

Would love the Avalanche community's feedback!

decaflow.xyz

For Ethereum Communities:

Hey Ethereum community!

Launching DecaFlow **on Dec 20** - a multi-chain DEX **with full** Ethereum mainnet support alongside **5** L2s.

Mainnet support **for** maximum liquidity access.

Features:

- Uniswap V3 & other major DEX routing
- Points **system with** weekly cash prizes
- L2 bridge integration
- 2026** airdrop eligibility

Would love Ethereum community's **thoughts!**

Execution:

- Read community rules first
- Post in appropriate channels (#showcase, #projects, etc.)
- Engage with all responses
- Be helpful and professional

Goal: Join and introduce in all 18 communities today

Hour 7-8: Twitter Ecosystem Engagement

Reply Strategy: Engage with ecosystem accounts across all 6 chains

Reply Templates:**To @BuildOnBase:**

Excited to launch on Base (+ 5 other chains) on Dec 20!

Built DecaFlow with Base-optimized routing for **sub-cent** gas.

Multi-chain approach lets users choose their preferred ecosystem while getting best execution.

decaflow.xyz

To @ArbitrumFdn:

Launching a multi-chain DEX **on Dec 20 with full** Arbitrum support!

Integrated Arbitrum's fast finality + low fees for optimal swap experience.

Supporting 6 chains total: Arbitrum, Base, Optimism, Polygon, Avalanche, Ethereum

decaflow.xyz

To @Optimism:

Excited **to** launch **with full** Optimism support **Dec 20!**

Integrated **with** Velodrome **and** other OP-native protocols **for** best routing.

Part **of** our 6-chain multi-ecosystem approach.

decaflow.xyz

To @0xPolygon:

Launching **Dec 20 with full Polygon** support!

Your massive **user** base **is** a key part **of** our multi-chain strategy.

QuickSwap & Uniswap V3 integration **for** optimal **Polygon** routing.

decaflow.xyz

To @avalancheavax:

Excited **to** launch **with** Avalanche support **Dec 20!**

Leveraging Avalanche's speed and subnet architecture for our multi-chain DEX.

6 chains, one **interface**, seamless swaps.

decaflow.xyz

To general DeFi posts:

This is exactly why we **built** DecaFlow with 6-chain support. Users **shouldn't** have to choose **between** their favorite chain **and** good tooling.

Launching Dec 20 with **Base**, Arbitrum, Optimism, Polygon, Avalanche, **and** Ethereum.

Post Title:

"Launching a multi-chain DEX on Dec 20 - would love feedback on our approach (Base, Arbitrum, Optimism, Polygon, Avalanche, ETH)"

Post Content:

Hey r/[subreddit],

We're launching DecaFlow on December 20 - a DEX that supports 6 chains with equal priority: Base, Arbitrum, Optimism, Polygon, Avalanche, and Ethereum.

****Why Multi-Chain:****

Most DEXs optimize for one ecosystem. We think users should be able to trade on their preferred chain without sacrificing features or liquidity routing.

****What We Built:****

- Seamless swaps across 6 chains
- Optimized routing for each chain's **characteristics**
- Points **system** (earn rewards **for** trading)
- Weekly cash prizes **from** platform fees
- Bridge aggregation **for cross**-chain moves
- Live leaderboard **for** transparent competition

****Launch Details:****

- **Date:** December 20, 2025
- Website: decaflow.xyz
- First 100 to 1,000 points **get** "Pioneer" status

****Feedback Welcome:****

We're launching in 2 days and would genuinely love feedback from the [subreddit] community on:

- Features you'd **like to** see
- Chains we should **add** next
- UX improvements

No hard sell - just builders looking **for real user input before** launch.

Check it out: decaflow.xyz

Goal: 6-7 quality posts across subreddits

Afternoon (3 hours): Product Hunt Preparation

Set up Product Hunt launch for Dec 20:

1. Create Product Hunt account (free)
2. Prepare listing
3. Schedule launch for Dec 20, 6am PST

FOR IMMEDIATE RELEASE

Multi-Chain DEX "DecaFlow" Launches December 20
with Support for Six Blockchain Ecosystems

[Your City] - December 18, 2025 - DecaFlow, a new multi-chain decentralized exchange, launches December 20 with support for six major blockchain networks: Base, Arbitrum, Optimism, Polygon, Avalanche, and Ethereum.

The platform takes an ecosystem-agnostic approach, treating all supported chains with equal priority. Users can trade on their preferred network while accessing optimized routing, cross-chain bridges, and a unified interface.

"DeFi users shouldn't have to choose between their favorite chain and great tooling," said Lovette Ene, founder of DecaFlow. "We built DecaFlow to serve all major ecosystems equally."

Key features include:

- Multi-chain swap routing optimized for each network
- Points system rewarding users for trading activity
- Weekly cash prizes funded by platform transaction fees
- Cross-chain bridge aggregation
- Live leaderboard for transparent competition

The platform launches December 20, 2025 with a "Pioneer 100" campaign offering enhanced benefits to early users.

Technical Details:

- Integrated with Uniswap V3, Aerodrome, and other major DEXs
- Bridge aggregation via Socket and Li.Fi protocols
- Gas-optimized contracts on each supported chain

Technical Deep-Dive Post:

BUILDING MULTI-CHAIN: The DecaFlow Technical Approach

Launching in 2 days. Here's how we built a DEX that actually works across 6 chains without compromising on any of them.

THE CHALLENGE:

Most DEXs optimize for one chain because it's easier. Supporting multiple chains means solving routing, liquidity, gas optimization, and UX separately for each ecosystem. It's 6x the work.

We did it anyway. Here's how:

LIQUIDITY ROUTING:

We integrate with native DEXs on each chain:

- Base: Aerodrome + Uniswap V3
- Arbitrum: Uniswap V3 + Camelot
- Optimism: Velodrome + Uniswap V3
- Polygon: QuickSwap + Uniswap V3
- Avalanche: Trader Joe + Pangolin
- Ethereum: Uniswap V3 + others

This means you always get the best price available on your chosen chain.

BRIDGE AGGREGATION:

Cross-chain moves use Socket and Li.Fi protocols to find the fastest, cheapest bridge route. We don't lock you into one bridge - we aggregate multiple options and show you the best one.

GAS OPTIMIZATION:

Each chain has different characteristics:

- L2s (Base, Arbitrum, Optimism): sub-cent transactions
- Polygon: low and stable fees
- Avalanche: fast finality, reasonable costs
- Ethereum: we batch operations to minimize gas

POINTS SYSTEM:

On-chain tracking of all transactions. Points are calculated based on:

- Swaps: 1x per \$1 traded
- Bridges: 2x per \$1 bridged
- Liquidity: 5x per \$1 added

All stored in PostgreSQL with automatic ranking updates.

SECURITY:

- Smart contracts audited
- No custody of user funds
- Direct DEX interaction (we route, not hold)
- Bridge aggregation through proven protocols

THE RESULT:

One interface that gives you native-level experience on 6 different chains. No compromises. No "works best on X chain" disclaimers.

Just seamless multi-chain DeFi.

Launch: December 20, 2025

Built different. Built for everyone.

DAY 3 (DECEMBER 19): FINAL PUSH

Morning (2 hours): Twitter Spaces

Twitter Spaces Details:

Title: "Building Multi-Chain DeFi: Lessons & Launch"

Time: 2pm UTC

Duration: 30 minutes

Topics:

1. Why we chose multi-chain architecture (5 min)
2. Technical challenges of supporting 6 chains (10 min)
3. Launch details - Dec 20 (5 min)
4. Q&A from all ecosystems (10 min)

Promotion Post (2 hours before):

 LIVE in 2 hours: "Building Multi-Chain DeFi"

Topics:

- Why support 6 chains instead of one
- Technical deep-dive on routing & optimization
- Dec 20 launch details
- Your questions from all ecosystems

All chains welcome: Base, Arbitrum, Optimism, Polygon, Avalanche, Ethereum

Set reminder 

Launching decaflow.xyz tomorrow

Afternoon (2-3 hours): Micro-Influencer Outreach

Target: Small influencers (1k-10k followers) across ALL 6 chains

How to Find Them:

- Search Twitter: "[chain name] DeFi" + filter by people

- Look for 1k-10k followers
- Check engagement rate (likes/comments)
- Active in last 7 days

DM Template:

Hey [Name]!

Saw you're active in [chain] DeFi. We're launching DecaFlow tomorrow - a multi-chain DEX with full [their chain] support alongside 5 others.

Would you be interested in checking it out? We're offering "Pioneer" status to the first 100 users who hit 1k points.

No ask for promotion - just genuinely curious if you'd try it and share feedback!

decaflow.xyz

Thanks!

Goal: 30-50 DMs (5-10 per ecosystem)

Evening: Launch Eve Content

24-Hour Countdown Post (Twitter):

24 HOURS UNTIL DECAFLOW LAUNCHES

Tomorrow **at** this **time**, we'll be live **with the** most comprehensive multi-chain DEX experience across **6** major ecosystems.

Here's what's going live:

Base - optimized **for** sub-cent gas fees
Arbitrum - leveraging fast finality
Optimism - integrated **with** native protocols
Polygon - accessing massive user base
Avalanche - utilizing subnet architecture
Ethereum - mainnet support **for** maximum liquidity

One interface. Six ecosystems. Zero compromises.

What you can do immediately **on launch day**:

1. Connect your wallet
2. Start trading **on** any **of 6** chains
3. Earn points automatically **on every transaction**
4. Compete **on the** live leaderboard
5. Qualify **for** Pioneer status (**first 100 to 1,000** points)

Why Pioneer status matters:

- **2x** allocation **in 2026** token airdrop
- Founding Trader badge **on** leaderboard
- Listed **on** our website **as** early supporter
- Exclusive access **to** new features

Weekly cash prizes start immediately. Not **"when we launch tokens"** or **"if we get funding"** - prizes are funded **by** platform **transaction** fees **from day** one.

This **is** what we've been building **for**. No VC backing required. No influencer co-signs needed. Just solid infrastructure serving **real** users across **real** chains.

decaflow.xyz goes live **in 24** hours.

RT **if** you're trading **with** us tomorrow

LinkedIn Post:

Excited **to launch** DecaFlow tomorrow - a multi-chain DEX serving six blockchain ecosystems.

Building **for** interoperability **isn't** easy, **but it's the** right path forward **for** DeFi.

Whether you prefer Base, Arbitrum, Optimism, Polygon, Avalanche, **or** Ethereum - you're welcome.

We believe **the** future **of** DeFi **isn't about** one chain winning. It's **about** giving users choice, access, **and** seamless experiences across all major ecosystems.

Final **update before** launch!

DecaFlow goes live tomorrow (**Dec 20**) at decaflow.xyz

Thanks **for** the support **from** this community.

[THEIR CHAIN] traders - we've optimized specifically for [chain-specific feature: Base's low gas / Arbitrum's fast finality / Optimism's OP Stack / Polygon's user base / Avalanche's subnets / Ethereum's liquidity]

First 100 to 1k points get Pioneer status (2x airdrop allocation).

See you at launch!

Goal: Hit all communities and platforms

LAUNCH DAY (DECEMBER 20): GO LIVE

6:00 AM - LAUNCH ANNOUNCEMENT

Twitter Launch Post:

DECAFLOW IS LIVE

After months **of** building, we're officially **open for** trading across **6** blockchains.

Right now, you can:

- Swap tokens **on** Base, Arbitrum, Optimism, Polygon, Avalanche, **or** Ethereum
- Earn points **on** every transaction
- Compete **on** the live leaderboard
- Start qualifying **for** Pioneer status
- **Begin** your path **to** weekly cash prizes

The first **100** users **to** reach **1,000** points get Pioneer status - which means **2x** allocation **in** our **2026** token airdrop, a Founding Trader badge, **and** recognition **on** our platform.

The race starts NOW.

No waitlist. No whitelist. No gatekeeping. Just connect your wallet **and** start trading.

We built DecaFlow because DeFi users deserve tools that work across **all** major chains, **not** just one ecosystem. Whether you prefer Base's low fees, Arbitrum's speed, **or** Ethereum's liquidity - you're welcome here.

This **is** multi-chain DeFi done right:

- Deep liquidity routing across **all 6** chains
- Optimized gas costs **on** each network
- Bridge aggregation **for** seamless cross-chain moves
- Real rewards that start today, **not** "coming soon"
- Transparent leaderboard showing exactly where you stand

Try it now: decaflow.xyz

Welcome **to** the future **of** accessible, interoperable DeFi

- Quote tweet users who try the platform
- Share first swap screenshots
- Celebrate milestones (10 users, 50 users, etc.)
- Engage with Product Hunt comments
- Monitor and respond to Reddit comments
- Help users in Discord/Telegram

First Milestone Post (After 10+ users):

FIRST 10 PIONEERS REACHED!

Just hours **after launch**, we're already seeing traders across multiple chains competing **for** Pioneer status.

Current stats:

- X unique wallets connected
- X transactions completed
- \$X total volume
- X chains being actively used

The leaderboard **is** heating up:

Rank #1: X points
Rank #2: X points
Rank #3: X points

90 Pioneer spots remaining (**first 100 to 1,000** points **get 2x** airdrop allocation)

What we're seeing **that** excites us:

- Users trading across multiple chains, **not** just one
- Bridge volume showing **true** cross-chain activity
- Community members helping each other **in** Discord
- Organic growth **without** paid promotion

This **is** exactly what we built DecaFlow **for** - **real** users, **real** trading, **real** multi-chain activity.

If you haven't tried **it** yet, now's **the time**. The Pioneer race **is on and the** competition **is** getting fierce.

EXPECTED RESULTS (72 HOURS)

Visibility Metrics:

Twitter:

- 100+ mentions
- 500-2,000 impressions per post
- 50-200 new followers
- High engagement from multiple ecosystems

Reddit:

- 1,000-5,000 views across posts
- 50-200 upvotes total
- 20-100 comments

- Cross-posted to 7 subreddits

Discord/Telegram:

- 18 communities reached
- 50,000+ potential impressions
- 100-500 direct views
- Engagement from all 6 ecosystems

Product Hunt:

- Top 10 in DeFi category
- 50-200 upvotes
- 20-50 comments
- Featured in daily newsletter

Press/Media:

- 1-3 article pickups
- 500-2,000 readers
- Backlinks for SEO

Micro-Influencers:

- 30-50 contacted
- 5-15 responses
- 2-5 organic mentions

Total Potential Reach: 50,000-100,000 people across all 6 ecosystems

Conversion Goal: 50-200 users on launch day

KEY PRINCIPLES

1. INCLUSIVE, Not Exclusive

- Make every chain feel valued
- Celebrate multi-chain as abundance
- Welcome all ecosystem communities

2. PROFESSIONAL, Not Dramatic

- No calling out anyone
- No victim narrative
- Focus on what you're building, not what others didn't do

3. VALUE-FIRST, Not Story-First

- Lead with features and benefits
- Technical depth shows credibility
- Let the product speak

4. COLLABORATIVE, Not Competitive

- You're serving users across ecosystems
- Not competing with other projects
- Rising tide lifts all boats

5. ASPIRATIONAL, Not Reactionary

- Focus on the future you're building
 - Positive vision for multi-chain DeFi
 - Leadership through execution
-

MASTER CHECKLIST

Day 1 (Dec 17):

- ☐ Write and post launch announcement (Twitter)
- ☐ Create one-pager document
- ☐ Join 18 Discord/Telegram communities
- ☐ Introduce DecaFlow in each (customize per chain)
- ☐ Reply to 30-50 ecosystem Twitter accounts
- ☐ Create visual assets (Canva)
- ☐ Set up Product Hunt account

Day 2 (Dec 18):

- ☐ Post in 6-7 subreddits
- ☐ Prepare Product Hunt listing
- ☐ Schedule PH launch for Dec 20
- ☐ Submit press release to 4-6 media outlets
- ☐ Post technical deep-dive (Twitter)
- ☐ DM 15-25 micro-influencers
- ☐ Create launch day graphics

Day 3 (Dec 19):

- ☐ Host Twitter Space (2pm UTC)
- ☐ DM 15-25 more micro-influencers
- ☐ Post 24-hour countdown (Twitter)
- ☐ LinkedIn launch eve post
- ☐ Update all 18 communities
- ☐ Final replies to all ecosystems
- ☐ Prep launch day response templates

Launch Day (Dec 20):

- ☐ Launch tweet (6am)
- ☐ Product Hunt launch (6am PST)
- ☐ Reddit announcements (all 7 subreddits)
- ☐ Discord/Telegram updates (all 18)
- ☐ Respond to ALL comments/mentions
- ☐ Share user success stories
- ☐ Celebrate milestones (10, 50, 100 users)

- [] Monitor leaderboard and share updates
- [] Help users in support channels

SUCCESS CRITERIA

By End of Launch Day:

- 50-200 unique wallets connected
- 100-500 transactions completed
- Active users on 4+ chains
- Product Hunt top 10 in category
- 100+ social media mentions
- 1-2 media article pickups
- Organic community forming in Discord
- First 10-20 Pioneers reached

Week 1 Goals:

- 200-500 unique wallets
- 1,000-3,000 transactions
- \$50k-\$250k volume
- All 6 chains actively used
- First weekly prizes distributed
- 100 Pioneers reached
- Organic referrals starting

QUICK REFERENCE - REPLY TEMPLATES

Short Replies for Engagement

For Base ecosystem:

Launching with full Base support tomorrow! Integrated Aerodrome + optimized for **sub-cent** gas. Multi-chain means Base users get great experience alongside 5 other ecosystems. decaflow.xyz

For Arbitrum ecosystem:

Full Arbitrum support launching **Dec 20**! Fast finality perfect **for** multi-chain routing. Supporting **6** chains **with** equal priority. decaflow.xyz

For Optimism ecosystem:

Launching **with full** OP support **Dec 20**! Integrated **with** Velodrome **and** OP Stack. **6** chains, **one** interface. decaflow.xyz

For Polygon ecosystem:

Polygon support launching **Dec 20**! Your **user** base **is** key **to** our multi-chain strategy. QuickSwap & Uniswap V3 integrated. decaflow.xyz

For Avalanche ecosystem:

Avalanche support launching Dec 20! Leveraging your speed and subnets. 6 chains supported equally. decaflow.xyz

For general DeFi discussions:

This is why we **built** 6-chain support. Users **shouldn't** choose **between** their favorite chain **and** good tooling. Launching Dec 20: decaflow.xyz

For gas fee complaints:

We optimized across 6 L1/L2s. Base, Arbitrum, Optimism swaps cost ~\$0.10-0.15. Plus points **on** every trade toward weekly prizes. Launching Dec 20: decaflow.xyz

FINAL NOTES

Remember:

- Be everywhere simultaneously (omnipresence)
- Respond to everything (engagement builds community)
- Stay positive and professional (no drama)
- Lead with value (features first, always)
- Celebrate all ecosystems equally (true multi-chain)

You're not picking a side in chain wars.

You're building infrastructure for everyone.

That's your superpower.
