Template 1: Telegram Group Introduction

Hey everyone!

Just joined this community. I'm [Name], building DecaFlow - a Base-native multi-chain DEX **with** a gamified points system.

We're focused **on** making DeFi accessible **for** African traders **with**:

- Near-zero gas fees (Base)
- Points **for every** trade
- Weekly cash prizes
- Upcoming airdrop

Currently **running** "**Pioneer 100**" - **first 100 to 1k** points **get** guaranteed airdrop allocation.

Would love **to get** feedback **from** this community!
decaflow.xyz

Happy **to** answer any questions

Template 2: Twitter Reply (Gas Fees)

This **is** why we built **on** Base 🗨

@DecaFlowXYZ costs ~\$**0.15** per swap vs \$**50+** **on** mainnet

Plus you earn points **that** qualify you **for**:

- Weekly cash prizes
- 2026** token airdrop

Try **it**: decaflow.xyz

Template 3: Reddit Comment (Value First)

I've been testing different DEXes on Base. Here's what I found works best:

For simple swaps: Uniswap (familiar interface)

For best prices: Aerodrome (Base-native liquidity)

For earning rewards: DecaFlow (points **system** + cash prizes)

Gas fees **on all** are under \$**0.20** which **is** insane compared **to** mainnet.

Full comparison: [link **to** your blog post]

Template 4: Discord Introduction

GM! **New to** this Discord

Been building **on** Base **for** [X] months. Just shipped DecaFlow - a DEX **with** a points/leaderboard **system**.

The idea: make trading more engaging **with** gamification.

Would love feedback **from** this community! **Also** happy to help anyone building **on** Base - I've learned a lot about Base deployment, gas optimization, etc.

LFG

Template 5: Partnership Pitch (DM)

Hey [Project Name]!

Love what you're building with [specific feature].

I'm building DecaFlow - Base-native DEX **with** a leaderboard **and** cash prizes. I think our communities would align well.

Quick idea:

- We create special trading pair **for** \$[YOUR_TOKEN]
- Bonus points multiplier **for** trading your token
- Joint Twitter announcement
- Cross-promote **in** our communities

Zero budget needed - just mutual growth.

Open to other ideas too! LMK **if** you'd be interested in **chatting**.

Template 6: User Testimonial Request

Hey [Username]!

Saw you're ranked #X on the leaderboard - congrats!

Would you be open to sharing your experience using DecaFlow? Would love to feature you in our "Trader Spotlight" series.

Quick questions:

1. What's your trading strategy?
2. How did you climb the leaderboard?
3. What do you like most about DecaFlow?

If we feature you, we'll give you bonus points + share across our socials. Interested?

TRACKING SHEET

Create Google Sheet with Columns:

- Community Name
- Platform (Telegram/Discord/Reddit/etc)

DO'S AND DON'TS

DO:

- Read community rules first
- Introduce yourself authentically
- Provide value before promoting
- Engage with other posts
- Answer questions helpfully
- Build relationships
- Be patient
- Track what works

DON'T:

- Spam the same message everywhere
- Join and immediately promote
- Ignore community rules
- Be salesy
- Argue with people
- Abandon communities after posting
- Fake engagement
- Buy followers/engagement

PRO TIPS

1. Time Zones Matter:

- Nigeria: GMT+1
- Kenya: GMT+3
- Ghana: GMT+0
- Post when they're most active (evenings)

2. Local Language:

- Some groups use pidgin or local languages
- Be respectful and authentic
- Use English but be culturally aware

3. Build First, Promote Second:

- Spend first week just engaging
- Help people, answer questions
- Then mention DecaFlow naturally

4. **Track Conversations:**

- Save good conversations
- Turn into case studies
- Share as testimonials

5. **Consistency > Intensity:**

- 5 groups/day for 30 days > 50 groups in one day
- Daily engagement > weekly bursts
- Build relationships, not just presence
