

VDM Staking Graphics Guide

VDM Staking Guide - Graphics Design Prompt

Project Overview

Create a professional, multi-slide infographic guide for VDM token staking on the DecaFlow platform. The guide should be visually engaging, easy to understand, and suitable for social media sharing and educational purposes.

Brand Guidelines

Color Palette

Primary Colors: - DecaFlow Blue: #3396FF (main brand color) - DecaFlow Light Blue: #47A1FF (accents) - VDM Colors: Use VDM's official brand colors where appropriate - Dark Background: #0A0E27 to #1a1f3a (gradient)

Supporting Colors: - Success Green: #10B981 (for positive actions, rewards) - Warning Orange: #F59E0B (for fees, important notes) - Text White: #FFFFFF (primary text) - Text Gray: #94A3B8 (secondary text)

Typography

- **Headlines:** Bold, modern sans-serif (e.g., Inter Bold, SF Pro Display Bold)
- **Body Text:** Clean, readable sans-serif (e.g., Inter Regular, SF Pro Text)
- **Numbers/Stats:** Medium to Bold weight for emphasis

Visual Style

- Modern, professional fintech aesthetic
 - Clean layouts with generous white space
 - Use gradient backgrounds (dark blues to purples)
 - Rounded corners on cards and buttons
 - Subtle shadows for depth
 - Icons: Line-style or minimal filled icons
-

Slide 1: Cover / Introduction

Title: "VDM Staking on DecaFlow: Complete Guide"

Visual Elements: - Split layout: VDM logo on left, DecaFlow logo on right - Partnership indication: "VDM × DecaFlow" - Subtitle: "Earn USDT Rewards by Staking VDM Tokens" - Background: Dark blue gradient with subtle grid pattern - Call-to-action: "decaflow.xyz/staking"

Key Message: "Secure your VDM tokens and earn passive income in USDT"

Slide 2: What is VDM Staking?

Title: "What is VDM Staking?"

Visual Layout: 3 icon-based sections in a horizontal row

Section 1: Lock Your Tokens

- **Icon:** Padlock or safe
- **Text:** "Lock VDM tokens for a fixed period"
- **Color:** Blue

Section 2: Earn Rewards

- **Icon:** Growing plant, upward arrow, or coins
- **Text:** "Earn competitive USDT rewards"
- **Color:** Green

Section 3: Claim Returns

- **Icon:** Wallet or money bag
- **Text:** "Get your VDM + USDT rewards back"
- **Color:** Purple

Bottom Section: - Small info box: "Built on Solana blockchain for security and transparency"

Slide 3: Staking Options & APY

Title: "Choose Your Lock Period"

Visual Layout: 4 cards in a grid (2x2 or horizontal row)

Card 1: 3 Months

- **APY:** 4%
- **Duration:** 3 Months
- **Icon:** Clock/calendar
- **Tag:** "Quick Returns"
- **Color:** Light Blue gradient

Card 2: 6 Months

- **APY:** 8%
- **Duration:** 6 Months
- **Icon:** Clock/calendar
- **Tag:** "Balanced"
- **Color:** Blue gradient

Card 3: 9 Months

- **APY:** 12%
- **Duration:** 9 Months
- **Icon:** Clock/calendar
- **Tag:** "High Yield"
- **Color:** Purple gradient

Card 4: 12 Months

- **APY:** 16%
- **Duration:** 12 Months
- **Icon:** Trophy or star
- **Tag:** "Maximum Returns"
- **Color:** Gold/orange gradient
- **Badge:** "BEST VALUE"

Bottom Note: "APY = Annual Percentage Yield. Rewards paid in USDT."

Slide 4: How It Works - User Journey

Title: "How to Stake VDM in 5 Easy Steps"

Visual Layout: Vertical timeline or horizontal flow with numbered steps

Step 1: Connect Wallet

- **Icon:** Wallet connection icon
- **Text:** "Connect your Solana wallet (Phantom, Solflare, etc.)"
- **Visual:** Screenshot mockup of wallet connect button

Step 2: Choose Lock Period

- **Icon:** Calendar selector
- **Text:** "Select your preferred staking duration (3, 6, 9, or 12 months)"
- **Visual:** Mockup of period selector UI

Step 3: Enter Amount

- **Icon:** Input field or calculator
- **Text:** "Enter the amount of VDM you want to stake (Min: 1,000 VDM)"

- **Visual:** Input field mockup

Step 4: Confirm & Stake

- **Icon:** Checkmark or signature
- **Text:** “Review fees and rewards, then approve the transaction in your wallet”
- **Visual:** Transaction confirmation mockup

Step 5: Track & Claim

- **Icon:** Dashboard or chart
- **Text:** “Monitor your stake and claim rewards when unlocked”
- **Visual:** Dashboard mockup showing countdown timer

Design Note: Use arrows or connecting lines between steps to show flow

Slide 5: Fee Structure

Title: “Fee Structure - Transparent & Fair”

Visual Layout: Split design with two main sections

Left Section: Deposit Fee

- **Large Number:** “2.5%”
- **Label:** “Deposit Fee”
- **Icon:** Downward arrow
- **Explanation:** “One-time fee when you stake”
- **Example:** “Stake 10,000 VDM → Fee: 250 VDM”
- **Color:** Orange

Right Section: Withdrawal Fee

- **Large Number:** “1.5%”
- **Label:** “Withdrawal Fee”
- **Icon:** Upward arrow
- **Explanation:** “One-time fee when you claim”
- **Example:** “Claim 10,000 VDM → Fee: 150 VDM”
- **Color:** Blue

Bottom Section: Net Returns Calculator Example

Scenario: Staking 10,000 VDM for 12 months - Initial Deposit: 10,000 VDM
 - Deposit Fee (2.5%): -250 VDM - Net Staked: 9,750 VDM - USDT Rewards (16% APY): +1,560 USDT - Withdrawal Fee (1.5%): -146.25 VDM - **Final Return:** 9,603.75 VDM + 1,560 USDT

Visual: Use a flowchart or calculation breakdown with color-coded numbers

Slide 6: Key Features & Benefits

Title: "Why Stake with DecaFlow?"

Visual Layout: Icon grid with 6 feature boxes (3x2)

Feature 1: Competitive APY

- **Icon:** Percentage symbol or chart
- **Text:** "Up to 16% APY on 12-month stakes"

Feature 2: USDT Rewards

- **Icon:** USDT logo or stablecoin icon
- **Text:** "Earn stable rewards in USDT"

Feature 3: No Maximum Limit

- **Icon:** Infinity symbol
- **Text:** "Stake any amount above 1,000 VDM"

Feature 4: Secure & Transparent

- **Icon:** Shield or lock
- **Text:** "Built on Solana with full transparency"

Feature 5: Simple Interface

- **Icon:** Computer screen or mobile device
- **Text:** "User-friendly dashboard on DecaFlow"

Feature 6: Partnership Backed

- **Icon:** Handshake
- **Text:** "Official VDM × DecaFlow collaboration"

Slide 7: Important Rules & Restrictions

Title: "Important Information"

Visual Layout: Warning-style cards with icons

Rule 1: No Early Unstaking

- **Icon:** Lock with "X" symbol
- **Text:** "Tokens are locked until maturity. No early withdrawals allowed."
- **Color:** Red/orange border

Rule 2: One Stake Per Wallet

- **Icon:** Single user icon
- **Text:** "Each wallet can only have one active stake at a time."
- **Color:** Blue border

Rule 3: Minimum Stake

- **Icon:** Minimum symbol
- **Text:** "Minimum stake amount is 1,000 VDM tokens."
- **Color:** Orange border

Rule 4: Rewards in USDT

- **Icon:** USDT logo
- **Text:** "Rewards are paid in USDT, principal returned in VDM."
- **Color:** Green border

Bottom Note: "Please read all terms carefully before staking."

Slide 8: Rewards Calculator Example

Title: "Calculate Your Potential Earnings"

Visual Layout: Interactive-looking calculator mockup

Example 1: Conservative Stake

- **Amount:** 5,000 VDM
- **Period:** 6 months
- **APY:** 8%
- **USDT Rewards:** ~200 USDT
- **Total Return:** 4,850 VDM + 200 USDT

Example 2: Moderate Stake

- **Amount:** 25,000 VDM
- **Period:** 9 months
- **APY:** 12%
- **USDT Rewards:** ~2,250 USDT
- **Total Return:** 24,250 VDM + 2,250 USDT

Example 3: Maximum Returns

- **Amount:** 100,000 VDM
- **Period:** 12 months
- **APY:** 16%
- **USDT Rewards:** ~15,600 USDT
- **Total Return:** 97,000 VDM + 15,600 USDT

Bottom Section: “Visit decaflow.xyz/staking to calculate your exact returns”

Slide 9: FAQ Section (Part 1)

Title: “Frequently Asked Questions”

Visual Layout: Q&A cards with alternating colors

Q1: What happens if I disconnect my wallet?

A: Your stake is secure on the blockchain. You can reconnect anytime to view your position and claim when unlocked.

Q2: Can I add more VDM to my existing stake?

A: No, each wallet can only have one active stake. You must wait for your current stake to complete and claim before staking again.

Q3: How are rewards calculated?

A: Rewards are calculated based on your net staked amount (after deposit fee) multiplied by the APY for your chosen lock period.

Q4: When can I claim my rewards?

A: You can claim your principal (VDM) and rewards (USDT) once your lock period has ended. A countdown timer on your dashboard shows remaining time.

Design: Use speech bubble or card design for each Q&A pair

Slide 10: FAQ Section (Part 2)

Title: “More Frequently Asked Questions”

Q5: Is my VDM safe during the staking period?

A: Yes. Your VDM is held in a secure custodial wallet managed by Affidex Lab and VDM team. The staking system is audited and monitored regularly.

Q6: What wallets are supported?

A: Any Solana-compatible wallet including Phantom, Solflare, Sollet, and others. Connect at decaflow.xyz/staking.

Q7: Are there any hidden fees?

A: No. Only two fees: 2.5% deposit fee and 1.5% withdrawal fee. These are clearly displayed before you confirm your stake.

Q8: What is the minimum staking amount?

A: The minimum stake is 1,000 VDM tokens. There is no maximum limit.

Slide 11: FAQ Section (Part 3)

Title: "Technical & Security Questions"

Q9: How do I get VDM tokens to stake?

A: You can purchase VDM tokens on supported exchanges and transfer them to your Solana wallet before staking.

Q10: What network is VDM staking on?

A: VDM staking operates on the Solana blockchain. Ensure your wallet is connected to Solana mainnet.

Q11: Can I unstake early in case of emergency?

A: No early unstaking is permitted. Your tokens are locked for the full duration you selected. Plan accordingly.

Q12: How long does it take to claim after unlocking?

A: Once your lock period ends, you submit a claim request. Payouts are processed by the Affidex/VDM operations team, typically within 24-48 hours.

Slide 12: Getting Started CTA

Title: "Ready to Start Earning?"

Visual Layout: Centered call-to-action design

Main Section:

- **Large Headline:** "Start Staking VDM Today"
- **Subheadline:** "Earn up to 16% APY in USDT rewards"
- **Button Mockup:** Large "Stake Now" button in DecaFlow blue
- **URL:** "decaflow.xyz/staking"

Supporting Elements:

- QR code linking to staking page (optional)
- Social media icons/handles:
 - Twitter: @DecaFlowXYZ
 - Website: decaflow.xyz

Bottom Section:

- Partnership logos: VDM × DecaFlow
- Trust indicators: “Powered by Solana” badge

Design:

- Use gradient background
 - Add subtle animation indicators (if creating animated graphics)
 - Make it look like a landing page hero section
-

Slide 13: Support & Resources

Title: “Need Help? We’re Here for You”

Visual Layout: Resource cards with links

Resource 1: Documentation

- **Icon:** Book or document
- **Text:** “Read full staking documentation”
- **Link:** Provide documentation URL

Resource 2: Community Support

- **Icon:** Chat or people
- **Text:** “Join our community channels”
- **Platforms:** Discord, Telegram, Twitter

Resource 3: Technical Support

- **Icon:** Headset or support
- **Text:** “Contact Affidex Lab support”
- **Email/Form:** Support contact method

Resource 4: Track Your Stake

- **Icon:** Dashboard
- **Text:** “Monitor your position anytime”
- **Link:** decaflow.xyz/staking

Bottom Section: - “Stay updated on Twitter: @DecaFlowXYZ” - “VDM Community: [VDM socials]”

Design Specifications

Format Options:

1. **Instagram Carousel:** 1080x1080px per slide (13 slides)
2. **Twitter/X Thread:** 1200x675px per slide (landscape)
3. **LinkedIn Post:** 1200x627px per slide
4. **PDF Guide:** 8.5x11" or A4 size
5. **Website Embeddable:** Responsive design

Export Formats:

- PNG (high resolution, 300 DPI for print)
- PDF (for comprehensive guide download)
- SVG (for web use)
- MP4 (if creating animated version)

Accessibility:

- Ensure text has sufficient contrast (WCAG AA minimum)
- Use alt text descriptions for all icons
- Font size minimum 14px for body text
- Headlines minimum 24px

Branding:

- Include VDM logo on every slide (top corner)
 - Include DecaFlow logo on every slide (opposite corner)
 - Consistent footer with “decaflow.xyz/staking” on each slide
 - Use slide numbers (e.g., “1/13”, “2/13”, etc.)
-

Additional Notes for Designer

Tone & Style:

- Professional but approachable
- Educational, not salesy
- Build trust through clarity and transparency
- Emphasize security and partnership

Visual Hierarchy:

- Most important information (APY rates, key steps) should be largest
- Use color to guide attention (green for benefits, orange for cautions)

- Consistent spacing and alignment across all slides

Icons & Illustrations:

- Use consistent icon style throughout (all line icons OR all filled)
- Consider custom illustrations for key concepts (staking, rewards, claiming)
- Avoid generic stock photos; use abstract shapes or crypto-themed graphics

Animation Suggestions (Optional):

- Slide 4 (How It Works): Animate steps appearing in sequence
- Slide 3 (APY cards): Cards flip or slide in
- Slide 12 (CTA): Pulsing “Stake Now” button
- Slide 8 (Calculator): Numbers count up animation

Testing:

- Ensure legibility on mobile screens (most users will view on phones)
- Test color contrast for colorblind accessibility
- Preview on dark mode if applicable
- Check that all text is readable at small sizes

Deliverables Checklist

- [] 13 individual slide graphics (PNG)
- [] Combined PDF guide (all slides)
- [] Instagram carousel format (1080x1080)
- [] Twitter thread format (1200x675)
- [] Editable source files (Figma, Sketch, or Adobe files)
- [] Web-optimized versions (compressed PNG/WebP)
- [] Optional: Animated MP4 versions of key slides
- [] Optional: Interactive Figma prototype

Summary

This graphics guide should serve as an educational tool for VDM token holders to understand, trust, and use the staking platform on DecaFlow. The design should be professional, clear, and aligned with both VDM and DecaFlow branding.

Goal: Increase user confidence and drive staking adoption through clear, visual education.

Target Audience: VDM token holders, crypto investors, DeFi users interested in passive income.

Key Success Metrics: - User comprehension (measured by reduced support questions) - Increased staking adoption - Social media engagement (shares, saves, comments)

Design Prompt Complete. Ready for implementation by graphic designer or AI design tools (Midjourney, Canva, Figma, Adobe, etc.)
